

# UNIPLAN *Wedge*

for coated fabrics and foils

**NEW**

## Hot Wedge Welding Machine

- Small, light and portable
- Simple and convenient operation
- Automatic start/stop for drive
- Digital display SET and ACTUAL values of welding speed and temperature
- Temperature and welding speed electronically controlled
- No smoke emission
- Noiseless

- Swivel wedge system

## Portable Track System

- Perfectly straight welding
- Replaces fixing of all the fabrics and foils. No tacking, sticking or stretching required
- Wrinkle-free welding
- Simple placement of track with connectors
- Fast, universally and without preparation suitable

- Track system individually extendable

**LEISTER**®

## Hot air welding machine of hot melt tapes

### Additional applications for overlap welding:

- Truck and boat covers, tents, covers for swimming pools, agriculture and construction industry, biotopes
- Billboards and banners
- Sun shades, canopies, awnings, industrial curtains
- Athletics products, inflatable boats

Automatic welding machine UNIPLAN used for joining sun shades

## Technical data

Type		UNIPLAN Wedge	UNIPLAN Tape
Voltage	V~	230	230
Frequency	Hz	50 / 60	50 / 60
Power consumption	W	500	2100
Max. temperature	°C	420	20 – 620
Drive	m/min	1.0 – 5.0	1.0 – 7.5
Size L x W x H	mm	420 x 270 x 190	420 x 270 x 210
Weight	kg	12	11.5

## LEISTER Hot Air Welding Machines UNIMAT and UNIPLAN

Reinforcement tape 40 mm is welded onto a PVC sheet using UNIMAT tape welding machine.

Overlap welding 20 mm of truck covers using UNIMAT.  
Welding speed up to 12m/min.

Trouble-free welding of a seam with UNIPLAN.

Further machines and hand welding tools are available in our program.
